TORONTO OPERA HOUSE.

Dan McCarthy, the Brilliant Irishman, to Play there during the Fair, Sept. 2 to 14.

With the death of Dion Boucicault, the unfortunate mental collapse of W. J. Scanlan, and the retirement of Joseph Murphy, the stage has left but one legitimate exponent of Irish character, Dan McCarthy, the announcement of whose appearance at the Toronto Opera House during the weeks of Canada's Great Fair, should be greeted with pleasure by the patrons of that popular theatre, as well as in the visiting visitors to this year's exposition. The engagement, which will embrace no less than nineteen performances, will be the most extensive ever played in Toronto by a theatrical star, and will mark the final presentation in Canada of two of Mr. McCarthy's most successful comedy-dramas, viz: "The Rambler from Clare" and "The Pride of Mayo." Both plays will be staged in the same excellent manner and interpreted by the same excellent cast, as during their extended runs in New York, Boston and Philadelphia. Mr. McCarthy is conventional in all his methods and does no violence to the traditional Irishman of the stage, hence his popularity with the masses. His depiction of an Irishman is full of

earnestness and humor, and he makes him a live, big headed brood of a boy, ready for a song or a fight or a dance or a bit of mischief. He pleases his audiences in all that he does.

"Every time I see McCarthy I think better of the Irish," a young English lady said to her escort in Buffalo recently, while some of the laughter caused by the "Pride of Mayo" still remained to brighten her face. And she was not the only one acquainted with Irish character who might have uttered a like sentiment. The Irish have been the most maligned of all races. To be sure, most of the prejudice against them, in this country at least, has disappeared, but their still remains some. The prejudice has been heightened by the presentation on the stage of the most ridiculous and brutal pictures of Irish life. Its almost total obliteration has been effected in no small measure through the same medium that was used in strengthening it—the stage. It needed only that Irishmen and women should be represented before the public faithfully that they should be appreciated, and the need was met by such men as McCarthy, and his time-honored

overlasting praise from his countrymen for his good work, and the Irish can hardly perform a more religious act than praying that his voice may long be preserved to him.

All of Mr. McCarthy's plays are written by himself, as are his songs, and the success of "The Cruikshank Law," "Dear Irish Boy," "True Irish Hearts," "McCarthy's Cat," "The Greenhorn," "The Rambler from Clare," and "The Pride of Mayo" have made him famous and wealthy.

Mr. McCarthy's supporting company this year is perhaps the largest and best ever carried by an Irish comedian, including the charming soubrette, Miss Lou Ripley, than whom a more sprightly comedienne does not appear in Irish comedy.

Much of Mr. McCarthy's success of late years has been acquired by his attention to the details of production. Few indeed are the travelling attractions that are better equipped than his. His admirers have come to know and appreciate this fact, and the result is that he always plays to crowded houses.

Perils of Bicycling.

CANANDAIGUA, N.Y., Aug. 29.—Two lives were hovering between existence and death last night as the result of a collision on the bicycle race track. Young Geo. Williams ran athwart the path of a practising racer, O. C. Tuttle, of New London. Tuttle was thrown in the air, and rendered unconscious. His wheel was utterly smashed, but he is all right today. The lad is suffering from a broken collar-bone and concussion of the brain. His chances for recovery are doubtful still.

Have a Great Reputation Here.

J. B. Taylor, Esq., merchant, Welland, says: "Stark's Powders have a great reputation about here as an immediate, as well as a permanent cure for Headache, Biliousness, Neuralgia, Liver and Stomach Complaints, Constipation. I know of people who have been long and great sufferers, who have tried almost everything, and have been cured by them. We have used them in our own family with remarkable success." Two preparations in each box. Sold by all medicine dealers at 25c. a box, 5 boxes \$1. Nice to take.

The Gaelic Society.

The Gaelic Society of Hamilton held their annual picnic and games on the Driving park, Grimsby, and had a very pleasant time. The members were dressed in kilts and a handsome lot of fellows they were. They were accompanied by the Hamilton pipe band, whose music pleased very much. The full program of games was carried out successfully. The game of shinty between a team in kilts and a team in trousers caused great excitement and amusement. The team in trousers won. The games were conducted by Calvin McLeod and D. J. Campbell, of Hamilton, and J. A. Livingston, of Grimsby.

The following is a list of the games and prize-winners:

Touched For Three Hundred.

A middle-aged American named Gen. E. Whipper, of Westfield, Mass., arrived at the Royal hotel last evening with his wife and reported being robbed at Niagara Falls of \$300 in cash. After crossing the Bridge some person announced that the passengers had to change cars, and there was a scramble and crush in the aisle of the car. When Whipper emerged from the crush he noticed that his vest had been pulled open to the lowest button. He hurriedly felt in the inside pocket of his vest, and where \$300 in bills had nestled in a roll there was naught but air—empty air.

Mr. Whipper reported the theft at once to Chief Young. Luckily he had given his wife \$100 to keep for him, and as thieves were unable to find her pocket that pocket was safe, otherwise they would have been penniless. As it is, their holiday trip is abruptly cut short.

Mattie Was Arrested.

Miss Mattie Martin, the 18-year-old daughter of respectable parents in London, Ont., thought she would take a trip to Grimsby Park for the good of her health and the enlargement of her experience of real life. That part of it was all right. Lots of girls have done the same thing and nothing was said about it, but in this particular case Mattie's parents raised a vigorous kick and even went so far as to place the matter in the hands of the London police. Now the London police were never known to catch even a man, not to speak of a woman, and they very wisely handed the case along with Mattie's photo over to Chief of Police Geo. Cole, of Grimsby. Women are Gus's particular line and in side of a very few hours he had my lady located and in his possession. A man from London came after her and now Mattie is safe under the parental roof. This is the first case on record where a person was arrested for the crime of going to Grimsby Park.

A Bold Dash for Liberty.

CHATEAU, Sept. 2.—(Special.)—An exciting occurrence transpired at Thamesville station to-day. Just as the C. P. R. express was pulling in, a prisoner named Peter McDonald, whom Sheriff Carpenter was taking from Rat Portage to Toronto to serve a term in the Central for supplying liquor unlawfully in the district, jumped from the platform of a passenger coach, and though handcuffed, lit on his feet and got away. Five men, including Chief of Police Twigg, joined in pursuit of the fugitive, who was finally traced to J. W. Langford's barn, five miles distant, and recaptured.

On Wednesday the fire alarm brought out the fire ladders promptly to a burning chimney on John Marro house. The boys were on deck in quick time, a section of hose laid and prepared to lay a second section and to knock the tar or rather the soot out of the chimney if required. The wind blew a stiff gale and might have proved serious, but it simply didn't, that's all.

Civic Holiday—Know all men that next Monday is our Civic holiday. You can attend the Toronto exhibition. Single fares on G. T. R. for double trip. Monday is Toronto citizen's day and a splendid program will be carried out. For full particulars see official program. It is first class.

Labor day was observed as a holiday and our fire boys went to Hamilton and were present in the great parade there. It is almost needless to say that they enjoyed the affair immensely.

J. F. Moyer, of Price Co., Buffalo, and his wife visited Vineland last week.

The boys struck a snap on the late train from the Hamilton Labor day and they used it for all that it was worth.

Slowly Starved to Death.

JACKSONVILLE, Fla., Aug. 31.—George Howell, aged 51, died yesterday morning of starvation. He starved on account of his inability to swallow food, not even a drop of water having passed into his stomach for a period of ten days. On the 16th inst. Howell was eating a peach, when, by accident, he swallowed the stone, which lodged in his oesophagus. He gradually wasted away until he was a mere skeleton.

At times she begged for food and water, but when they were given to him he could not swallow them. Physicians performed the operation of oesophagotomy, but failed to remove the obstruction.

The autopsy showed that the stone was turned crosswise in its passage to the stomach, and the sharp end had penetrated into the walls of the oesophagus.

Attempted Blackmail.

BUFFALO, Aug. 29.—United States Commissioner Henry Fitzgerald was over-powered by three friends of Wm. Challenger, the highway robber, whom Fitzgerald defended, but who now is serving time at Auburn, and tied to a bedpost last Sunday night until he drew a cheque for \$60 in favor of his captors. He stopped payment on the cheque, and the men supposed to be implicated have been arrested. Fitzgerald is suffering from dyspepsia.

Nervous Prostration

It is now a well established fact in medical science that nervousness is due to impure blood. Therefore the true way to cure nervousness is by purifying and enriching the blood. The great blood purifier is Hood's Sarsaparilla. Read this letter:

"For the last two years I have been a great sufferer with nervous prostration and palpitation of the heart. I was weak in my limbs and had smothered sensations. At last my physician advised me to try Hood's Sarsaparilla which I did, and I am happy to say that I am now strong and well. I am still using Hood's Sarsaparilla and would not be without it. I recommend it to all who are suffering with nervous prostration and palpitation of the heart." MRS. DALTON, 66 Allen St., Toronto, Ontario. Get Hood's Sarsaparilla

Valuable Cargo.

SAN FRANCISCO, Calif., Aug. 30.—The steamer Bertha, Captain Hays, arrived in this port last night from Uvalde and Behring Sea. She brought with her one of the most valuable cargoes that has ever come into this harbor. It is composed of seal skins, fur, walrusbone, and gold dust, and is estimated to be worth between \$750,000 and \$1,000,000. Her passengers report an almost utter failure of the whaling fleet. Captain Hays says that all the sealers who went into Behring Sea fared poorly, but he brings a piece of news that 44 vessels cleared from Uvalde for Behring Sea, nearly every one of them carrying a sealing bag. It seems that the captains were warned by the revenue cutters at Uvalde that they would be seized if they went into the sea without the bag. The captain took the hint. The seals in the vicinity of the Pribyloff Islands, it was learned, are fast disappearing, and they are even more scarce outside the prohibited zone.

J. MacLean, Point St. Chm., writes: Nothing better for Lame Back and Lumbago than the B. & L. Monthly Plaster. A. E. MacLean writes from Windsor: "The B. & L. Monthly Plaster is curing my Back and Rheumatism of a great age in a few weeks. We each in six days the best."

Death of Four Children.

SULLIVAN, Mo., Aug. 30.—Yesterday evening three children of a widow named Jenkins, while at play, went to a place near the barn to gather eggs. The place was rather out of the way and dangerous, owing to snakes, which are numerous in that region. One child thrust its hand into what it supposed was the hen's nest, and quickly withdrew it, exclaiming that the hen had pecked its hand. The other two children put in their hands with the same result, and then set up a loud cry. The mother was at the well with the baby, and the alarm so excited her that she left the house and ran to the assistance of the three children, who, it seems, had been bitten by a rattlesnake. During the excitement the little babe fell into the well and was drowned, and the three other children also died.

AN INTERESTING INTERVIEW WITH MRS. (REV.) F. B. STRATTON.

Threatened With Paralysis—Weak, Emaciated and Unable to Stand Fatigue—Pink Pills Restore Her Health.

From the Niagara News.

The Rev. F. B. Stratton, of Selby, is one of the best known ministers in Quinte conference, of which body he is the President. During the two years he has been stationed at Selby, both he and Mrs. Stratton have won hosts of friends among all classes for their unassuming and sincere Christian work. Some time ago Mrs. Stratton was attacked with partial paralysis, and her restoration having been attributed to the use of Dr. Williams' Pink Pills, a reporter of the Beaver was sent to interview her. In reply to the reporter's question Mrs. Stratton said that she had been greatly benefited by Dr. Williams' Pink Pills, and was perfectly willing to give her experience that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her sides and arms (partial paralysis) which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way, with occasional dizzy spells. She was becoming emaciated and easily fatigued and was unable to get sleep from this cause. The trouble seemed to be worse at night time. Mr. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue as Mrs. Stratton's mother, the late Mrs. Weaver, of Ingersoll, had been similarly stricken, at about the same age. Knowing a young lady in Trenton, where Mr. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, it was determined to give them a fair trial. When Mrs. Stratton began using the Pink Pills she was very thin and her system badly run down, but after taking the pills for some time, all symptoms of paralysis disappeared, and she found her health and strength renewed and her weight increased. Mrs. Stratton is about fifty years of age, and a more healthy, robust, and younger looking lady is seldom seen at that age.

In reply to the reporter's inquiry as to what Pink Pills had done for his wife, Mr. Stratton said, "Look at her, look at her, doesn't she show it," and the reporter could not but admit the truth of the statement.

Dr. Williams' Pink Pills are a certain cure for all diseases such as St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of the grippe, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions, and all forms of female weakness, build-

ing new the blood, and restoring the glow of health to pale and sallow cheeks. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

Horrible Discovery.

KINGSTON, Aug. 29.—A horrible discovery was made on the farm of the Rathbun Company at Napanee Mills on Wednesday. A gang of men were digging for terra clay when they discovered, under about one foot of earth, a skeleton of a man or woman with a large knife sticking in the breast. The body was not enclosed in a coffin or any kind of box. The knife is dagger-shaped, about 14 inches long, and much eaten by rust. The discovery has caused intense excitement, and is generally connected with the disappearance of a man a few years ago. The skeleton and knife were removed to a place of safety for the purpose of investigation, but mysteriously disappeared during Wednesday night.

Murray Hints at Murder.

WINDEB, Ont., Aug. 29.—Governor's Detective Murray is here looking into the death of Fred Walker, of Guelph, whose body was found in the river at Amherstburg three weeks ago. Detective Murray says he has information going to prove that Walker was not alive when put into the water; in other words, that the case is not one of suicide. The circumstances were looked upon by his relatives in Guelph as very suspicious and they made application to the attorney-general for an inquiry into the case. Mr. Murray has spent several days looking into the circumstances. He is unable to reconcile the suicide theory with the facts he has learned about Walker's doings previous to his death. He further points to the great distance of the spot where the body was found from the city of Detroit, where Walker was staying the night before, and he cannot understand how it could have drifted out. There is a probability, he admits, in the theory about the man having gone aboard a river steamer and fallen off on the trip, his head coming in contact with the paddle wheel of the vessel, but from certain facts in his possession the detective has formed another opinion as to how the unfortunate fellow came to his end.

Do not fail to hear the Rev. J. H. Hector lecture on "Personal Reminiscences of the War" in the Methodist church here on Thursday evening, Sept. 5th. Admission is so low that all can be sure of hearing the celebrated black knight orator on this very interesting subject.

The president of the South Grimsby cheese factory, together with the cheese maker, paid a flying visit to Gransie's Corners one evening last week. The person visited promised to lay away the skimmer providing no action was taken.

Did you ever examine a bicycle this way. 1st, press your thumbs down on the tires; 2nd, spin the pedals, and then to make sure it is a good wheel, lift it. Well, if you have not, it seems to be the way most people do anyway.

We were shown a rarity the other day in a pretty pink pearl, which Andrew Merritt found in a chain captured on the Twenty. The pearl was nearly as large as a small pea but not quite so round, there being a flat side to it. Such a thing has been found before but very seldom.

On Tuesday evening of last week the members of the Presbyterian church gave their pastor and his good lady a reception at the church. A goodly number of the friends were present and heartily enjoyed the good things provided by the ladies on the lawn adjoining the church, after which they assembled in the building and were regaled with music, speeches, etc., and all spent a very enjoyable evening.

A GIGANTIC FRAUD.

A Man Supposed to Have Been Drowned Two Years Ago, Found.

DULUTH, Minn., Sept. 2.—George Fraker, of Topeka, Kansas, the man who was supposed to have been drowned in the Missouri river two years ago, was captured in the woods near Tower, Minn., yesterday. Fraker's life was insured for \$50,000, and the heirs brought suit in the Kansas courts to recover. The case went to the Supreme Court, and was one of the most famous insurance cases of the country. The insurance companies were defeated in the final decision, it being recorded last month.

It was always maintained by the companies that Fraker was alive, but his whereabouts were unknown. Recently it became known in some way that Fraker was near Tower, where he was known under the alias of Schnell. Attorney Robert Herrick and Deputy Sheriff Wilkinson, of Topeka, came here and organized a party to search for him. Fraker was found in the woods, and his capture was effected in a strategic manner. He was brought to Duluth to-day, and was taken to Topeka at once. Fraker will go without a requisition. He has been living near Tower for six months. He admitted his identity, but said he did not leave Topeka on purpose to defraud the companies, but while he was near the Missouri river he fell in. He swam across the river and got on land. The next day he read in the papers that he had been drowned, and concluded to carry out the deception and allow his heirs to collect the insurance.

The case is one of great general interest, because of a reward of \$20,000 which was offered for his capture. Fraker is a physician, and up to the latter part of 1893 was physician to the St. Elmo hotel, the leading hotel in Excelsior Springs, a famous health resort, near Kansas City. Together with seven or eight companions, the doctor went fishing on the Missouri river one day, and after dark, and while in the company of Geo. Harvey, James Triplett, and Jake Crowley, a negro, he disappeared, and was seen no more. These parties afterwards swore positively that they witnessed his drowning while rowing in a leaky boat, but after a strict search his body could not be recovered. Some three or four months previous he began loading up with life insurance, taking \$10,000 in the Kansas Mutual Life Company of Topeka, \$15,000 in the Hartford Life, \$15,000 in the Providence Savings, \$10,000 in the Equitable Life of New York, and \$8,000 in benevolent societies, a total of \$58,000. After a thorough investigation all the companies, except the Equitable, refused to pay the claims, whereupon James E. Lincoln, the executor of the will, brought suit in the District Court at Liberty, Mo., which was afterwards transferred to the United States Circuit Court at Kansas City. Robert Herrick was appointed jointly to conduct the case for the companies, and was assisted by eminent legal talent. In the latter part of 1894, after an intensely sensational trial lasting two weeks, in December, 1894, the jury, acting under positive instructions from the court, declared for the defence. A new trial was granted on technical points, but in February, 1895, judgment was given for the full amount, and a stay of execution granted for six months until August 12, 1895. On that date the full amount was paid to the executor, and the companies withdrew their offer of \$20,000 reward.

Her Voice Restored After Six Years.

New York, Aug. 31.—Six years ago burglars broke into the home of Mrs. Susan Irwin, at 159 Broad street, Columbus, Ohio. They entered the room in which she was asleep, and as they lighted the gas the noise awoke her. A scream was frozen upon her lips as the cold barrel of a revolver was pressed against her forehead, and she fainted away. For two days she remained unconscious and then awoke to find that she had lost the power of speech through fright. Mrs. Irwin was prominent in Columbus society circles and her husband was a well-to-do merchant. When local physicians failed to bring back to her the use of her vocal organs the two started abroad. For months she remained in Heidelberg and then Berlin was tried and no improvement resulted. Dresden and Paris was visited and every prominent physician was consulted and all the well-known medical institutions visited, and still Mrs. Irwin's condition remained the same. A trip to London failed to produce any results, and, despairing husband and wife determined to return home, the former to build up his business and recruit his depleted exchequer.

While in this city Mr. Irwin died and this added to his wife's misery. She had always been an omnivorous reader, and in this way acquired some knowledge of hypnotism. Some weeks ago she determined to try the effects of its power upon her vocal organs, and consulted a well-known physician on Fifty-sixth street, who studied hypnotism under the famous Charcot in Paris. On Aug. 13, after some preliminary experiments, she was thrown into a hypnotic trance and was sent home to sleep by the physician, with imperative instructions to talk immediately upon awakening. As sleep slowly fell upon her eyes she remembered the doctor's words and spoke aloud.

In a frenzy of delight she rushed to the room of her landlady—she was boarding at 300 West Thirty-fifth street—and triumphantly exclaimed that she had once again regained control of her voice. The muscles of her throat vibrated quickly with the unusual exercise and the voice sounded strange, but in a week or two, her physician says, it will be as strong as ever. Mrs. Irwin was not difficult to hypnotize, the doctor states, and after being thrown into a trance enacted the scene of the burglary and went into convulsions such as she must have been seized with at the time her voice left her.

Another Industry.

Mr. J. W. VanDyke has secured the vacant lot west of the roller rink, where ground has been broken for the erection of a large engine and boiler house, in which will be placed the powerful plant recently purchased at Nimico. A portion of the rink is being fitted up with apparatus of the latest improved description for evaporating fruit (especially apples) on an extensive scale.

The engine and boiler will supply the power necessary for the electric light as well as steam for the evaporating plants. A large number of men are at work on the premises. The Independent wishes VanDyke success in his enterprise.

Horrible State of the Streets.

For many years we have not suffered with dust as we have the last week. It is really time that the council should take some action in this matter, as great damage is being done and inconvenience felt by the neglect of the street watering.

Since the watering cart has ceased operations life on the business streets has become almost unendurable. Stores, offices, hotels and private houses have actually been flooded with sand and dirt. Not only this, but visitors to the village have swallowed dirt enough to remind them of the town for the next month. Here is a chance for Reeve Doreau to cover himself with glory.

They present a striking spectacle in their uniform, red skirts, regulation red waists, with wide rolling collars and regulation bonnets.

The corps enjoys the distinction of being the only mounted Salvation army fighters in the world. It starts out immediately for a tour of the mountain towns.

A Gentleman Remarked

"People are in the habit of reading your ads because you are in the habit of changing them often and making them interesting, attractive and truthful. People throughout this county read Smart's announcements, call at the store and realize that we do exactly as we advertise. We are offering a pocket book usually retailed at 50 cents for 15c. with 1 lb. of our famous profit sharing any price tea or coffee or baking powder, cocoa, chocolate, mustard, pepper, etc. beautiful table mirror for 15c. with 1 lb.; crystal celery holder for 15c. with one lb. all exceptional good value; large 8 inch fruit dish for 15c. with 1 lb. any price tea, coffee, etc.

"Isn't this just a grand store" said one lady to another on Tuesday morning. "Well, I guess it is, was the answer. I don't see how they keep everything so nice and clean and so neatly arranged" said the first again; "it does one good to come to such a place" she continued.

We scarcely ever repeat these complimentary remarks. If we did we'd have no room to tell of other things. In this case we do, because it has become a wonder to everyone how we do all that's done here so regularly every day. Of course it keeps us hustling to show window exhibits every day; to do our own sign printing; get the daily receipt of goods on exhibition, and tell you in the papers what's going on every day. That's only the beginning of the store's daily work, but it's what a great many stores don't do. It isn't so much either when everything is systematic, when everyone knows what is expected of them, and it really isn't any more than we think we should be doing for you.

Oakley was coming down the hill at a fair rate of speed on a Brantford, and George Fisher was going up on a Stearns, but one of them was slow in turning to the right, consequently the Brantford struck the Stearns near the sprocket wheel and completely demolished the front wheel of the Brantford, the Stearns escaping damage. BURGLARY.

Last Friday night some person or persons entered the house of W. F. Lewis, by way of the bow window, and ransacked the cellar and first floor, while Mr. Lewis and family were peacefully sleeping upstairs. Nothing was known of the burglary until next morning, when Mrs. Lewis discovered that what cash was down stairs, amounting to a few cents, and a few other things, were gone. Everything in the cellar and first floor was overturned, which seems to indicate that money and jewelry were the things sought for. Fortunately, Mrs. Lewis has these things upstairs. So far efforts to gain information as to why the intruders were so fruitless.
